#### **Evaluating Early Access to Medicaid as a Reentry Strategy**

The National Institute of Corrections (NIC) Administration Division is seeking applications for the development, implementation, and evaluation of a project to assess the effects of access to Medicaid at the time of release from incarceration on reentry outcomes, including health care utilization, employment success, and recidivism. The recipient of the award will work in a partnership with the selected state's prisons, jails, and Medicaid agency to implement and evaluate the project. This project will be conducted over a 36-month period. This cooperative agreement is a collaborative project between the National Institute of Corrections and the Office of the Assistant Secretary for Planning and Evaluation (ASPE), U.S. Department of Health and Human Services (HHS). To be considered, applicants must demonstrate at a minimum (1) in-depth knowledge of the criminal justice and healthcare fields, (2) experience working with local jails, state prisons, and state Medicaid agencies, (3) the capacity to engage local jails, state prisons, and state Medicaid agencies participation in this project, and (4) the experience and organizational capacity to carry out the goals of this project.

**Deadline: August 11, 2011**

#### **National Resource Center on Nutrition and Aging**

The mission of the Administration on Aging (AoA) is to help older adults maintain their dignity and independence in their homes and communities through comprehensive, coordinated, and cost-effective systems of long-term care and livable communities across the United States. In order to accomplish this mission, targeted policy, strategic planning, and quality core services are necessary at the national, state, and local levels. The aging services network is serving a continuum of aging individuals in the community from those who need health promotion, disease prevention and risk reduction services to an increasingly vulnerable and frail population with a need for long-term supports and services.

**Deadline: August 17, 2011**

#### **Obesity and Asthma: Awareness and Management**

The purpose of this funding opportunity announcement issued by the National Institute of Nursing Research is to stimulate research to examine the interconnections of asthma and obesity. The prevalences of both asthma and obesity have significantly risen in the past few decades. Although the association between these 2 conditions has been found in many studies, the exact mechanisms for how this association arises are unresolved. Because both of these conditions have their beginnings in early life, an aspect of the association between them that requires more understanding is their common exposures in early life. Studies that investigate the molecular pathways linking asthma and obesity are encouraged. In addition, intervention studies targeting asthma or obesity and their effects on each one, and possible mechanisms of action are encouraged.

**Deadline: September 7, 2011**

#### **Effects of Secondhand Smoke on Cardiovascular and Pulmonary Disease Mechanisms**

This Funding Opportunity Announcement (FOA) issued by the National Heart, Lung, and Blood Institute and National Institute of Environmental Health Sciences National Institutes of Health, invites applications that propose to better characterize the dose-response relationship between secondhand smoke (SHS) exposure and the cardiovascular and pulmonary diseases by improving our understanding of the mechanisms by which SHS contributes to these diseases. The recent Institute of Medicine (IOM) report on Secondhand Smoke Exposure and Cardiovascular Effects: Making Sense of the Evidence serves as the basis for this initiative. A wide range of research including animal and human laboratory studies, cohort and case control studies, and natural experiments resulting from home, workplace, and/or community changes in SHS exposure are consistent with this initiative.

**Scleroderma Foundation New Investigator Grant**

The Scleroderma Foundation's New Investigator Grant is for promising new investigators who hold faculty or equivalent positions and who wish to pursue a career in research related to systemic scleroderma. This grant will support promising research that is likely to lead to individual research project grants and is designed to facilitate the entry of promising new investigators into this area of research. Applicants may request up to \$50,000 per year for up to three years not to exceed \$150,000.

**Deadline: September 15, 2011**

**Maximum Grant: \$150,000**

**Grant Link:** <http://www.scleroderma.org/research/researchhome.shtm>

**Scleroderma Foundation Experienced Investigator Grant**

The Scleroderma Foundation's Established Investigator Grant is for established investigators both inside and outside the field of systemic sclerosis (SSc, scleroderma) research who wish to propose pilot studies to obtain preliminary data dealing with a highly innovative and/or highly relevant theme related to SSc. This grant will support pilot research that is likely to lead to more substantial research pilot grants from federal or non-federal sources. Applicants may request up to \$75,000 per year for up to two years not to exceed \$150,000.

**Deadline: September 15, 2011**

**Maximum Grant: \$150,000**

**Grant Link:** <http://www.scleroderma.org/research/researchhome.shtm>

**MARC Ancillary Training Activities**

The National Institute of General Medical Sciences (NIGMS) will award the MARC Ancillary Training Activities Program as a means to facilitate the training and development of individuals from groups underrepresented in the biomedical, clinical, behavioral, and social sciences. Ancillary training support is provided for national conferences, short courses, or other well-defined training activities that further the NIGMS mission of increasing the diversity of the NIH funded biomedical and behavioral research workforce.

**Nutrition Obesity Research Center**

This FOA issued by the National Institutes of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, invites grant applications from institutions/organizations that propose to establish core centers that are part of an integrated program of nutrition and/or obesity-research. The Nutrition Obesity Research Center program is based on the core concept, whereby shared resources aimed at fostering productivity, synergy, and new research ideas among the funded investigators are supported in a cost-effective manner. Each proposed NORC must be organized around central themes that reflect the nutrition and/or obesity research focus of the center members. Grant Application Due November 16, 2011.

**Deadline: October 19, 2011 (LOI)**

**Maximum Grant: \$750,000**

**SCIENCE AND TECHNOLOGY****Collections in Support of Biological Research**

The Collections in Support of Biological Research (CSBR) Program provides funds for improvements to secure, improve, and organize collections that are significant to the NSF/BIO-funded research community. Support is also provided to secure collections-related data for sustained, accurate, and efficient accessibility of the collection to the biological research community. Supplemental funding is also available to transfer collection ownership responsibilities or consolidate or combine existing collections. The CSBR program provides for enhancements that secure and improve existing collections, result in accessible digitized specimen-related data, and develop better methods for specimen curation and collection management. Requests should demonstrate a clear and urgent need to secure the collection, and the proposed activities should address that need. Biological collections supported include established living stocks/culture collections, vouchered non-living natural history collections, and jointly-curated ancillary collections such as preserved tissues and DNA libraries.
